

Blogging Assignments

Directions:

1. First, you MUST have an email address. If you do not have web-based email, go and get one. (set up a Yahoo or Hotmail account)
2. Once you have an email account, go to <https://www.blogger.com/start> and click "Create Your Blog Now".
3. Set up your blog.
4. Once your blog is set up, go to "Settings" and then click on "Email". Type in your teacher's email address in to the box where it says "BlogSend Address". It should look like this:

The screenshot shows the Blogger Settings interface. At the top, there are navigation tabs: Posting, Settings (circled), Template, and View Blog. Below these are sub-tabs: Basic, Publishing, Formatting, Comments, Archiving, Site Feed, Email (highlighted with an arrow), and Permissions. The main content area is divided into two sections. The first section is titled "BlogSend Address" and contains a text input field with the value "kristine_nethers@fuhsd.org" and a small instruction: "Enter an email address here to have your blog mailed to whenever you publish." The second section is titled "Mail-to-Blogger Address" and contains a text input field with the value "McLeodtl.", a smaller text input field, and "@blogger.com". Below this is the instruction: "This is an address by which you can post to your blog via email." and a checkbox labeled "Publish". At the bottom of the form is an orange button labeled "Save Settings".

5. Now go and write your first post. Your teacher will get an email with what you wrote as soon as you publish it.
